

4Cheque APP - Turn your smartphone into a Check Scanner and much more

Emmedi extends its expertise to the mobile services world and enhances its best-selling product 4Cheque to meet new needs and offer a range of innovative solutions to Banks and Companies.

4Cheque APP is the brand new app that **turns a smartphone into a portable scanner** and allows to **acquire, decode, index, archive and share** the processed documents in a few simple steps, even on the go: **checks, ID cards, driving licenses, passports, tax forms and many others.**

Once the document is framed with the camera, the exclusive **4Cheque APP** technology generates the digital image of the document and does everything automatically:

EXCELLENT DECODING PERFORMANCE

Recognizes every field of each document and extracts the data with superior decoding performance. Fonts: MICR (CMC7 and E13B), OCR-A and OCR-B, MRZ and barcodes

AUTOMATIC ARCHIVING & FAST SEARCH

Automatically indexes and archives documents on dedicated Cloud Service and instantly makes all the information available even on a PC with 4Cheque PRO (or other devices with 4Cheque APP)

FAST & SIMPLE SHARING

PDF image and CSV file with metadata immediately shareable by mail, WhatsApp or Cloud

GREAT FLEXIBILITY OF USE

Can be used anytime, everywhere + Simple integration with Corporate or Bank information systems (also Remote Deposit Capture) thanks to the use of standard output formats
